| <p>AGENT'S NOTES: The manner in which the name Otilie was written on a card in the ENZ file makes it confusing as to whether Otilie was one person and Maria Delphine Plavot a second person or whether Otilie Maria Delphine Plavot was the entire name of one individual. The name "Maria" was written in such a way as to be easily mis-read as "Mona". A picture of Marie-Therese Reimeringer and of Franz Reimeringer are on file. The results of a Berlin Document Center check concerning Franz Reimeringer were reported in Agent Report, Subj: REIMERINGER, Franz, phase designation LOCAL AGENCY, dated 3 October 1963.</p> |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
